Whatever the scope of your unique asset finance activities, Ryznware™ software solutions can provide your business with many tangible and real benefits with one all-inclusive and affordable monthly payment.

- √ Increased efficiencies
- √ True cost-savings
- √ Valuable business insight
- √ Impact to your overall strategic decision making
- √ Enhanced customer service

EVALUATION PACKAGE

Request our evaluation package designed to take you through each critical software evaluation step more easily and effectively with a focus on your business needs. Reading fact sheets and touring automated online software demos can only take you so far.

To properly evaluate a software fit for your business, attention to details are key to your software success. Our evaluation package includes a four step process starting with a needs questionnaire, pricing evaluation, consultation and in depth demo. For more details, please visit our website and click on our Request page.

“Business First”™

Tailored Solutions for small or large asset based finance companies

RYZWARE™ FOUNDATION

Every Ryznware™ foundation software starts off the same core features which are essential to providing your business with every competitive advantage — now and in the future as your business grows.

- Multi-company
- Multi-divisional
- Multi-currency
- Multi-asset
- Multi-language
- Unlimited users

“Business First™” approach

ENSURING YOUR UNIQUE FINANCE BUSINESS HAS THE SOFTWARE IT DESERVES

Since 1989, Ryzn Enterprise Systems Inc. has been providing simple to complex software solutions for companies in order to help them solve problems, improve internal efficiencies and gain more insight into their lending business activities, performance and trends.

With a focus always on your business first, Ryznware™ software solutions are designed around how your unique business works, and not the other

Whether you are a small or large finance business, our Business First approach ensures that we achieve a live software that delivers expected results based on your initial objectives, as quickly, efficiently and affordably as possible, given the real world timelines, budget and resource constraints. It is a process that continues to support the needs of your business long after a successful implementation, in order to help you keep up with new challenges and problems as they inevitably arise in the future.

Affordable ready-to-go or tailored asset finance solutions

CONTRACT / DOCUMENT MANAGEMENT

Book and track your loan and/or lease contracts from preliminary status to maturity and termination, with comprehensive originating entity, customer, asset and related documentation details.

- Amortization, Discount/Expense Schedules
- Standard and custom payment frequencies
- Equipment locations and asset details
- Industry and custom credit scores
- Document creation and generation
- Insurance tracking and renewal
- Document creation and generation
- Guarantors and commitments
- Legal searches and lien filings

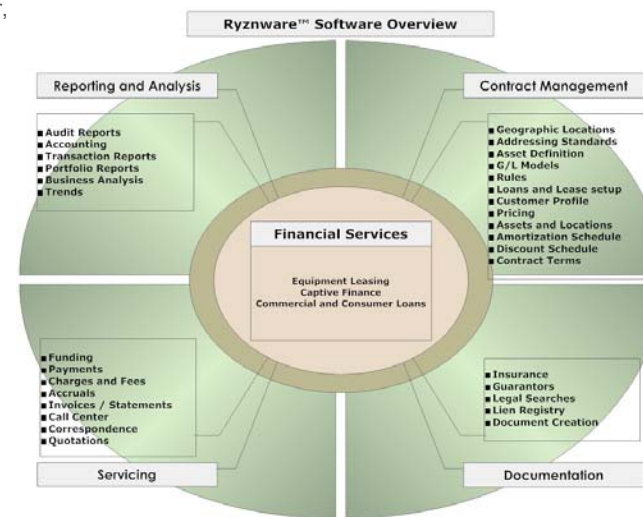

LOAN AND LEASE SERVICING

- Once a contract is finalized, process transactions from funding to termination with ease using few key entries.
- Funding Release and funds transfer
 - Cash Receipts, charges and sales taxes
 - Restructures
 - Contract termination and payoffs
 - Accruals and accounting

RYZWARE™ SOFTWARE IS READY-TO-GO OR CAN BE TAILORED TO YOUR NEEDS, ALWAYS WITH AFFORDABILITY, VALUE AND EFFICIENCY IN MIND

BUSINESS MANAGEMENT

Getting a handle on your daily lending activities efficiently is already a big plus, but is only part of the overall software advantage to your business.

With all contract details in one central system, you can now take it to the next level by applying all that organized and related data in a format that helps in overall strategic decision making.

Analyze data by originating entity, customer, geographical location or asset type. Evaluate performance and identify trends.

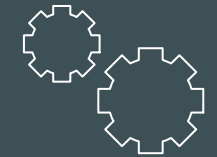

- Extensive Customer profiles
- Performance History
- Portfolio summary
- Forecasting
- Geographical analysis
- Financial Ratio analysis
- Custom Reports

LIGHTWEIGHT Solutions

Designed specifically to suit the needs of the smaller equipment lender having a simpler or smaller portfolio and who is looking for a software to kick-start their finance business into a more efficient and competitive one.

Not yet ready for the more sophisticated features you probably don't need right away? Have a limited budget? Then the Lightweight version is for you.

HEAVYWEIGHT Solutions

Targeted for larger equipment finance manufacturers and captive finance lenders whose requirements are more demanding and more complex.

Do you want to add integration with external entities, enhance customer service, and add more in-depth business intelligence? Then you are a contender for the Heavyweight version.

TAILORED Solutions

Both the core Lightweight and Heavyweight versions are already extensive in their capability and features and are ready-to-go. However, whatever the version that is right for your finance business, Ryznware™ software can always be tailored to your unique business model whenever you need it most.
